

Army Corps Of Engineers Safety

The mission of the U.S. Army Corps of Engineers is to deliver vital public and military engineering services; partnering in peace and war to strengthen our nation's security, energize the economy and reduce risks from disasters.

Safety and Occupational Health - usace.army.mil

As one of the Nation's largest providers of outdoor recreation, safety is a top priority for the U.S. Army Corps of Engineers. To assist us in this mission we have developed a National Water Safety Program, as well as community programs to educate visitors about the importance of water safety.

Water Safety - sam.usace.army.mil

WASHINGTON DC -- Summer is almost here and that means millions of Americans will be planning visits to our nation's lakes and rivers. As the steward of many of these public waters, the U.S. Army Corps of Engineers (USACE) reminds visitors to be aware of the importance of practicing safe, sensible and thoughtful activities in and around the water.

Army Corps of Engineers promotes water safety this summer ...

U.S. Army Corps of Engineers photo by Dave Melancon "We build safety into our business processes from cradle to grave," said Rich Wright, chief of safety and occupational health at USACE. Whether at locks and dams in the United States or construction sites in Afghanistan, safety is part of the culture of work at USACE.
