reasonable time frame. Future versions of the Zend Engine may and probably will include additional features. This document is not yet final, and may change before the final version of the Zend Engine 2.0. Discussions about the Zend Engine 2.0 will take place on the Engine 2.0 mailing list (mail engine2-subscribe@lists.zend.com to subscribe).

Zend Engine 2 - index-of.co.uk

The first version of the Zend Engine appeared in 1999 in PHP version 4. It was written in C as a highly optimized modular back-end, which for the first time could be used in applications outside of PHP. The Zend Engine provides memory and resource management, and other standard services for the PHP language.

Zend Engine - Wikipedia

Overview Version 1.0 of the Zend Engine is the heart and brain of PHP 4.0. It provides the infrastructure and services to the function modules, and implements the language syntax.

zendengine-2.0 by Jorn Jorn - Issuu

Because of the significant changes, the reworked Zend Engine is called Zend Engine 3, succeeding Zend Engine 2 used in PHP 5. Because of major internal changes in phpng it must receive a new major version number of PHP, rather than a minor PHP 5 release, according to PHP's release process.

PHP - Wikipedia

Thanks to the new Zend Engine 3.0, your apps see up to 2x faster performance and 50% better memory consumption than PHP 5.6, allowing you to serve more concurrent users without adding any hardware. Designed and refactored for today's workloads, PHP 7 is the ultimate choice for web developers today.

PHP 7 makes powering the web a whole lot better - Zend

Overview. Zend Framework is a collection of professional PHP packages with more than 413 million installations. It can be used to develop web applications and services using PHP 5.6+, and provides 100% object-oriented code using a broad spectrum of language features.

About - Zend Framework

Zend is proud to work with companies big and small across a wide range of industries. Zend Server equips them with the infrastructure and insight to support rapid application releases, and scale their apps both on-premise and in the cloud.
